20147

- What is informality?
 - The classification used in Colombia is based initially on the occupational position. For more information about definitions of the occupational position check out (**DANE 2024, 88–92**)
 - **Obrero, empleado del gobierno** is not considered informal in any case
 - **Obrero o empleado de empresa particular, Empleado doméstico** and **Trabajador sin remuneración en empresas o negocios de otros hogares** who do not have health or pension contributions made due to their employment relationship with the employer who hired them are considered informal
 - **Jornalero o Peón** and **Trabajador familiar sin remuneración** are considered informal

- What is informality?

- The classification used in Colombia is based initially on the occupational position. For more information about definitions of the occupational position check out (**DANE 2024, 88–92**)
 - **Patrón o empleador** and **Trabajador por cuenta propia** classified as informal¹
 - Those employed in the sectors with ISIC codes 84 and 99 with the exception of **Jornalero o Peón** and **Trabajador familiar sin remuneración** are not considered informal

¹The rules are not simple in this case. Check

<https://www.dane.gov.co/index.php/estadisticas-por-tema/mercado-laboral/empleo-informal-y-seguridad-social> > Anexos in relation to the sheets **Código_SAS** or **Código_STATA**

- Informality proportion (PI)
 - Employed (E)
 - Informal Employed (I)

$$PI = \frac{I}{E} \times 100$$

- Formality proportion (PF)

$$PF = 1 - PI = 1 - \frac{I}{E} \times 100$$

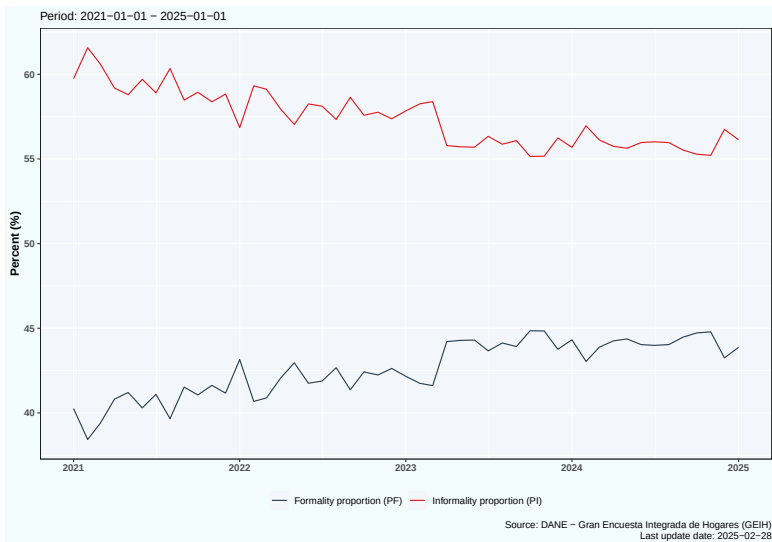

Figure 4: Formality and informality proportion in Colombia

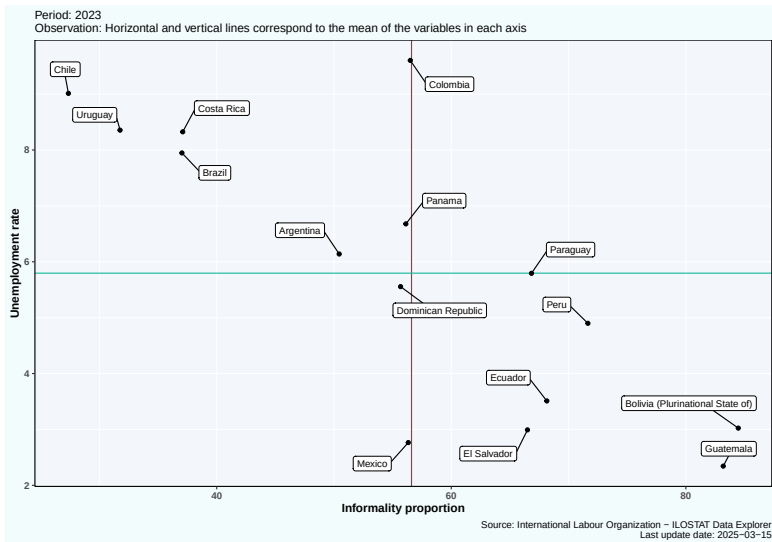

Figure 5: Informality proportion vs unemployment rate for some countries in Latin America

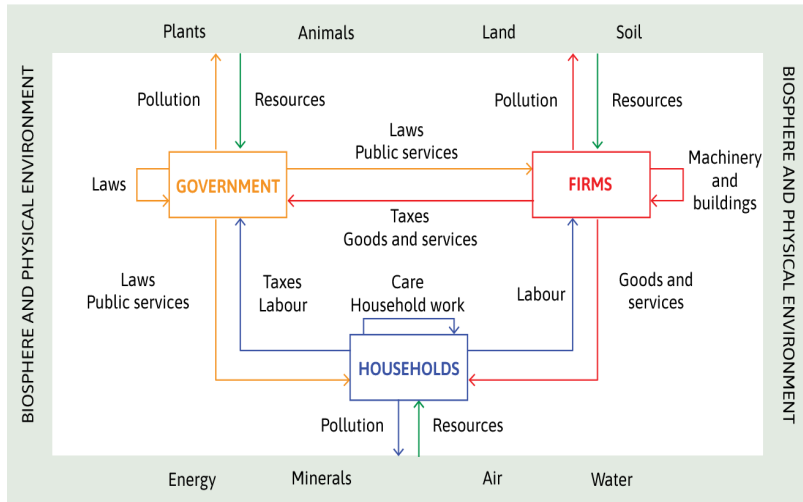

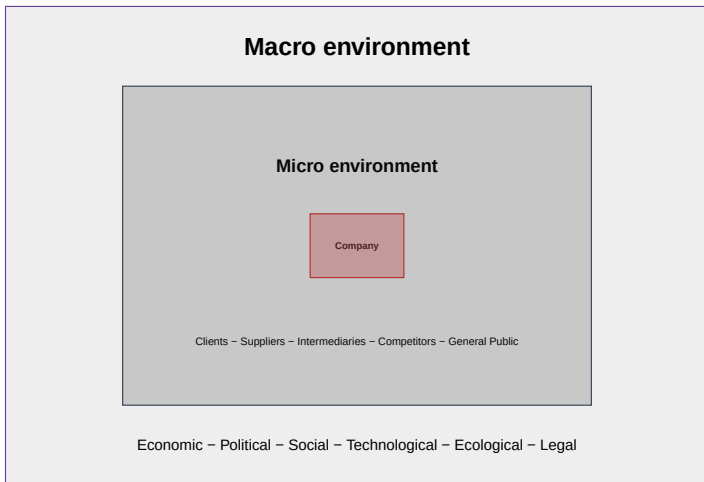

Figure 6: A model of the economy: flows of resources (Team 2023, fig. 1.21)
